Pharmaceutical

- Pentanes
- Perchloroethylene
- Phthalates
- Poly Ethylene Glycols
- Poly Propylene Glycol
- Petrosols

SBP's

- Secondary Butanol
- Shellsol's Solvent Blends
- Solvent Naphtha
- Solvesso Special Boiling Point Solvents
- Styrene Monomer

Toluene

- Trichloroethylene
- Triethylene Glycol (TEG)
- Vinyl Acetate Monomer
- White Spirit
- Xylene

SURFACTANTS

- Alkanolamides
- Coconut Diethanolamide
- Lauric Monoethanolamide
- Oleic Diethanolamide
- Oleic Monoethanolamide

Amphoterics / Amine Oxides

- Alkyl Dimethyl Amine Oxide
- Alkyl Polycarboxylates
- Betaines

Anionics

- Alcohol Sulphates
- Alkyl Benzene Sulphonates
- Alkyl Benzene Sulphonic Acid
- Paraffin Sulphonates
- Potassium Sod Cumene Sulph
- Sodium Cumene Sulphonate

Carboxylic Acids

- Cationic / Quats
- Benzyl Ammonium Chloride
- Didecyl Dimethyl Am Chloride
- Esterquat Fabric Softener Cond
- Imidazoline Quat Fabric Cond
- Quaternary Amine Ethoxylate

EO/PO Block Copolymers

- Esters
- Phosphated Esters
- Phosphoric Acid Esters

- Ethanolamines
- Di isopropanolamine
- Diethanolamines
- Monoethanolamines
- Monoisopropanolamine
- Tri isopropanolamine
- Triethanolamines
- Ether Sulphates
- Alcohol Ether Sulphates
- Nonyl Phenol Ether Sulphates
- Sodium Alkyl Ether Sulphate
- Sodium Lauryl Ether Sulphate

Ethoxylates

- Fatty Alcohols
- Polyethylene Glycols
- Sulphosuccinates

COLOURS AND DYES

- Acid Dyes including:
  - Acid Blue 1
  - Acid Blue 9 powder
  - Acid Blue 9 liquid
  - Acid Blue 62
  - Acid Blue 80
  - Acid Green 1
  - Acid Green 16
  - Acid Green 27
  - Acid Green 7
  - Acid Red 1
  - Acid Red 52 (Acid Rhodamine)
  - Acid Red 388 (Rhodamine WT)
  - Acid Yellow 17
  - Acid Yellow 36
  - Acid Yellow 73 (Fluorescein)

- Antifoams
  - Silicone antifoams
  - Vegetable oil based antifoams

Aquarine

- Pigment dispersions
- Water based pigment dispersions

Basic Dyes

- Malachite Green
- Rhodamine

Direct Dyes

- Disperse Dyes
- Food Colours

- Brilliant Blue
- Carmoisine
- Erythrosine
- Ponceau 4R
- Quinoline Yellow
- Sunset Yellow
- Tartrazine

Disperse Dyes

- Inorganic Pigments and Blends
- Reactive Dyes
- Silicone Oils
- Textile Print Systems
- Thiourea Dioxide
- Water Tracing Dyes

We would be pleased to offer additional products through our global sourcing operation.
Additionally, to enable Tennants to meet the needs of its customers, the Tennant Group has developed into a successful, privately owned, chemical company based in the UK, supplying products for a wide range of applications. The company is known for its commitment to quality and customer service, and it continues to grow and expand its operations around the world. The Tennant Group is one of the leading chemical distribution companies in the UK, employing over 800 people worldwide. It provides a wide range of products for industries such as paint, coatings, foods, pharmaceuticals, and personal care, and it continues to innovate and develop new products to meet the needs of its customers.
With our roots dating back to the 18th Century the Tennant Group has developed into a modern, globally oriented chemical company based in the UK, involved predominantly in the manufacture and distribution of chemicals. Group annual turnover is now £220m employing over 800 people worldwide.

A key part of the Group is its distribution company UK and Ireland where we have an extensive network of depots. Distribution turnover amounting to approximately £70m now makes us one of the UK’s leading chemical distribution companies.

Currently, we are distributors for many of the world’s major chemical manufacturers stocking over 2,500 products in various package sizes and in many cases able to offer the product in bulk.

Through years of working as partnerships and have developed supply chain solutions for both manufacturers and suppliers that work for both.

Additionally, we enable Tennants to meet the need for the increased globalisation of business. As a valued partner in Penta, a major chemical distribution network based in Europe. This enables us to offer both the close solutions for suppliers and customers throughout mainland Europe, as well as to our chemical alliance worldwide.

**TENNANTS**
With our origins dating back to the 18th Century the Tennant Group has developed into a major player in the global chemical industry. The Group is now a diversified chemicals company based in the UK, involved predominantly in the manufacture and distribution of chemicals. The Group is well known for its vast range of products and services to meet the needs of its customers.

A key part of the Group is its distribution network, covering the UK and Europe, where it has an extensive network of depot distribution centers, serving over 2,500 customers in various industries, including food, pharmaceuticals, and agriculture. The Group's annual turnover is over £200m, employing over 800 people worldwide.

Through decades of working in partnership with its customers, the Group has developed a comprehensive range of products and services tailored to meet the needs of each industry.
